## THE HEVEA PLEDGE FOR IMPACT

We are a female-founded and family-run company based in Denmark with a mission to leave greener fingerprints on the world. We are proud to be B Corp certified, and that our products are Vegan certified.

## FROM SEED TO SOIL - WHY WE LOVE NATURAL RUBBER

Our goal is to limit our impact on our planet as much as we possibly can and reduce our CO<sup>2</sup> fingerprints on the planet.

**From Seed...** We produce natural product alternatives to plastic and silicon made from the sap and wood of the Hevea Brasiliensis tree. The tree, itself, stores CO<sub>2</sub> when growing, thus acting against global warming - whereas silicone and plastic are typically petroleum or oil-based - releasing CO<sub>2</sub> into the atmosphere when produced. Additionally, we limit as much waste as possible in the manufacturing process - collecting rubber off cuts to reuse for our upcycled rubber product ranges.

**To Use...** Not only is natural rubber better for the planet, it's better for baby and safe. It is completely free from BPA, phthalates, PVC and other harmful chemicals. Our colour dyes are made from FDA-approved pigments. And our products have been tested by an internationally acclaimed testing agency - meeting all relevant international standards and regulations.

**To Soil...** Natural rubber is compostable and biodegrades naturally within 10 years leaving no harmful fingerprint for the planet. Plastic and silicone do not biodegrade since they are synthetic, rather they break down. Plastic, for instance, can take up to 500 years to break down! And silicone, while considered much better than plastic, will at best, will take 50 years to break down (but can also take up to 500 years!).

We hope you will fall in love with natural rubber and HEVEA products as much as we have! Please find our SS24 product ranges featured in the following pages.

**SAFE BATH TOYS WITH A SPLASH!**

Forget the inside mould that comes with most bath toys with holes inside of them! Our Squeeze & Splash Bath Toys have large bottom holes to ensure that it is easy to clean and dry their insides. They have an adorable bottom that allows children to fill the toy with water, seal, and squirt water - making bathtime interactive and fun!

## The story of Kawan

**SAFE  
AND FUN!**  
NO HOLES =  
NO INSIDE  
MOULD

"On a visit to our Malaysian factory and plantation, I noticed some beautiful white ducks. The farmer's son had been friends with one of the ducks since he was a baby. Now, both 7 years old, they played together, the duck even followed him to school!"

The name Kawan, meaning 'friend' in Malay, is a nod to the farmer's son and his web-footed schoolfriend. And so, the story of our little, natural rubber duck was born."

Terese, HEVEA founder

## A LITTLE HELPER

Finally - a stool that stays in place for all those day-to-day toddler uses! Whether little ones want to reach the sink to brush their teeth, help to cook at the kitchen countertop, sit to draw at the coffee table, or hop into their new big kid bed...there are so many uses for our beautifully sophisticated stools made from rubberwood. Natural rubber feet, ensure the stool stays in place on hard surfaces, and the natural rubber thumbprint top, ensures toddlers stay in place a top!
